Environmental Health, Interim Division Director

Body Art Self-Inspection Checklist

The items shown on this checklist represent the major areas evaluated during a body art safety inspection. This check list is designed to assist you in evaluating the condition of your facility between inspections by this Department. We suggest that you go through the list, and check off those items you believe are in compliance. Any item not checked could be considered a violation and should be corrected. We hope this checklist will help you maintain a safe and compliant body art facility.

Shop Name: _____
